

Will Kurt napravio je wiki stranicu s popisom baza podataka koje su pretrazive preko Google Scholar a pozvao nas da dodamo na listu ono sto uocimo da je pretrazivo. Sluzbenu informaciju od Googla o tome nije moguće dobiti.

*"I put in a few entries mainly as a demo, but please add and see if we can get a good list going. Knowing what is not indexed is equally as important as knowing what is. If enough people contribute this could be a really useful."*
