

Eto cura pitala na linuxChix mailing listi o linuxu--eto odgovora:

1. Fwd: what is linux all about (cecilia yuyi)

Well Cecilia Linux is all about sharing. Between Community. Of users. Sharing of code, concepts, philosophy. .

Linux is a kernel of GNU Operating System. It is also a Project & Movement.

Proprietary O.S.s & software a mostly a Product.

It sa unix clone.Programmed by Linux Torvalds & 1000s of hackers (not crackers).

It is used by enthusiasts, governments, students, e-commerce, Internet providers, banks, industry; because of its security, stability, portability, openness & specific development model and patent free Licencing--Copyleft (<http://www.gnu.org>)

The central spot of info is at:

<http://www.linux.org>

&

<http://www.linux.com>

The history is available at:

<http://en.wikipedia.org/wiki/Linux>

& a specific, (somewhere outdated) documentation at:

<http://tldp.org/>

I recomend:

Linux instalation & Getting started:

&

http://tldp.org/LDP/intro-linux/html/chap_01.html

Users login at command line or Graphical User Interface & start aplications, in multiuser, multitasking & even multiProcessor environment.

Documetation is actualy available at command line interface (man, info, faqs, howto-s,) & X Window(ing) System--Desktop Enviroments (GUI which mimic the concept & Philosophy of known Operating Systems GUIs such as Windows, AmigaOS, Apple MacOS, AtariOS.)

There are numerous Linux User Groups & Conferences, through a World where you can get LiveCD, instalable CD, phisical help, for single & multiboot (with win) install on Your desktop or notebook machine.

There are noumerous of distributions (CDs, DVDs, floppys) to satisfy every need:

Not to speak of many magazines & paper book which are available.

For example we at the skillExchange workshop here in Zagreb, Croatia are focused at helping new users, especially wumen.

Dont read the f....n manual, ask & bother. The Community. And be a part of One.
