## Specification

Input voltage: 6V ~ 40V  
Output voltage: 0V ~ 36V  
Output current: 0A ~ 3A  
Conversion efficiency: up to 92%  
The output ripple:  $\hat{a} \approx 50\text{mV}$   
Working temperature:  $-40^{\circ}\text{C} \sim +85^{\circ}\text{C}$   
Working frequency: 150KHz  
Short circuit protection: constant current  
Voltage regulation/display resolution: 0.01V  
Current regulation/display resolution: 0.001A  
The minimum display resolution of power: 0.001W  
The minimum display resolution of capacity: 0.001AH  
Input reverse connect protection: no, if necessary please install diode  
Connection mode: terminals  
Size: 66 x 50 x 21mm  
Weight: 44g
