If you know Croatian, start here: http://radiona.org/wiki/inventory/fabrikator_2_mini
to configure wifi and get web interface working

```
M550 SSID  
M551 PaSsWoRd
```

```
# verify IP from ap  
M552
```

tools

- <https://github.com/emard/fab2mini>

g-code

<https://marlinfw.org/docs/gcode/M018.html>

Disable all steppers immediately

```
M18
```

schematics

- board schematics <https://github.com/goran-mahovlic/stm32Board/>
 - ◆ <http://www.lemilica.com/reversing-mini-fabrikator-v2-malyan-m100-3d-printer/>

software

```
dpavlin@nuc:/nuc/Fabrikator_ii_mini$ sudo apt install repetier-host
```
